

PUTTING AN END TO STARVATION AND POVERTY

For all the comment and debate about what is wrong with our financial system, the government and mainstream media has carefully avoided pointing to the real cause of the problem.

The blame game is in full swing but the conspiracy of silence concerning the truth has been deafening.

What I am talking about here is the worlds best kept secret. The fact is that the truth about this international cover up is so explosive that had it got out the world would be a much better place.

No one would be starving, as living standards would be higher and taxes lower. Inflation, deflation and unemployment could not exist and the reasons for social division and war would have disappeared. The political system would have been transformed to one based on cooperation and raising all people up. And the tyranny of corporate monopolies and government control of the people would have ended.

If you want to know why for the last two centuries we have been plagued with a money system that causes poverty, chaos and conflict type: '*I want the Earth plus 5%*' into your internet search engine and read the illustrated story by Larry Hannigan. It explains how small banking elite has enslaved the world with their fractional reserve lending system. Do this and you will be so mad that you will immediately want to email your MP and demand that Parliament replaces this evil system with a pure (debt free) money system that will enable all people to have the abundant life.

If we say enough is enough and act now our country and world will be transformed and economic collapse averted. It is that simple.
